To get this to work do i have to create new save???????????????? Plz tell me i need help?!. So Touching. one of the best tycoon vames on steam tbh. Great multiplayer game, simple to learn, hard to perfect. 2d planes with good controls both on controller and mouse + keyboard, few gamemodes (team deathmatch,ctf, football, etc...) and it's FREE now - go on and try it!. Really nonsense, has glitchy movements on foot and on the bus. Feels like driving a shopping cart.. **SHORT VERSION:**
I am too noob for this game.

LONGER VERSION:

I know the whole point of the game is to have sh*tty controls which make it very hard to play but this level of sh*tty and hard is just too much. I needed half an hour and 40 tries to beat Level 1. Not my kind of game.. OK, 1st off, I want to say that this mini movie is Fabulous! I have been a fan for many years, more than I want to admit to. Now for comparison to the original 2 DVD movies that came out many years ago. In it's time, the movies helped sell & fill in some missing pieces to the game. Now I find "Mortal Kombat: Legacy" and it doesn't take anything away from the original, but instead helps introduce the characters to a new generation. And it does it well! I was sad when it didn't cover all the characters. But then came Season 2 and I'm super pleased that someone decided to do this. Thank you everyone involved in the making of this Video.

Now when are you coming out with a "Mortal Kombat: Classic Collection" which will have all game versions included.. i lub this gaem <3

. This games controls suck, and even if they worked, the game would probably still be trash

It's hard to say what's good about Omegaland without spoiling some cool surprises. That's the thing about games that want to surprise you, right? So instead, I'm going to list some things. If you like these things, you might want to play Omegaland.

Shareware and Flash games created by enthusiastic amateurs, simple dialog written with care, finding secrets for their own sake, Knytt or similar exploration platformers, allegory, aesthetic playfulness.. support dev by bought this DLC keep going dev. I really like this thing... Its fun flying around... cool concept!. There is real life snuff footage in this game. I don't even know if this game is legal to distribute. The rest of the game is terrible to.

Full Review Here <http://www.gamefaqs.com/PC/824060-the-interview/reviews/160336>. Cute, but short.

The controls aren't the best.

There aren't too many puzzles.

The difficulty is less a curve and more peaks and valleys, with the peaks getting pretty high. A hint system would be appreciated.

I'm glad I played it, but I can't quite recommend it.. Great little game!

https://www.youtube.com/watch?v=ei9qY_dwSL8&feature=youtu.be. this game was awesome, im miss it ,i hope the depelover is doing another game like this, what a waste. It's a great game, I was very excited to play it when I received as a gift from a special person. I didn't get disappointed, the game is really nice and beautiful, good graphics and soundtrack. In a biological view I really liked it, even in a botanical lab some people can't imagine a plant as a live being, I mean, they are immobile to our eyes! By playing "Reach for the Sun" I felt I can like plants even more now than I already liked before. Totally recommended if you are interested in plants <3. Don't let my time fool you, I completed the game before it got on Steam, since I pre-ordered the Limited Edition from JList.

This is...glorious. As you might be able to see from my Steam library, I love yuri VNs, and this is no exception. The music is sweet, the characters are too, and...my goodness, everything just comes together into this little ball of love and happiness, with more than a bit of tension added by the many different mysteries to solve, and pain when said mysteries are solved incorrectly.

Going on these mysteries, some of them are far more difficult than others, and may require some frustating retries to get, due to that one really obtuse piece of evidence that you may have overlooked. However, there are walkthroughs if you cannot for the life of you understand what the game wants, and don't feel bad for using them; after all, you're probably here for the yuri anyway.

Speaking of which, it's here. Soft, sweet, and more than a little blatant, it's a perfect little ball of enjoyment that I fully recommend.
