The screenshot shows the Microsoft Excel interface. The active cell is A2, containing the text 'Smith'. The formula bar also displays 'Smith'. The main worksheet area contains a table with the following data:

	A	B	C	D	E
1	Last Name	Sales	Country	Quarter	
2	Smith	\$16,753.00	UK	Qtr 3	
3	Johnson	\$14,808.00	USA	Qtr 4	
4	Williams	\$10,644.00	UK	Qtr 2	
5	Jones	\$1,390.00	USA	Qtr 3	
6	Brown	\$4,865.00	USA	Qtr 4	
7	Williams	\$12,438.00	UK	Qtr 1	
8	Johnson	\$9,339.00	UK	Qtr 2	
9	Smith	\$18,919.00	USA	Qtr 3	
10	Jones	\$9,213.00	USA	Qtr 4	
11	Jones	\$7,433.00	UK	Qtr 1	
12	Brown	\$3,255.00	USA	Qtr 2	
13	Williams	\$14,867.00	USA	Qtr 3	
14	Williams	\$19,302.00	UK	Qtr 4	
15	Smith	\$9,698.00	USA	Qtr 1

The XML Source task pane is open on the right side of the window. It has a title bar 'XML Source' and a close button. Below the title bar, it says 'XML maps in this workbook:' followed by a dropdown menu. A large empty rectangular area is present below this. Below the area, there is a message: 'This workbook does not contain any XML maps. Click XML Maps to add an XML map to this workbook.' There are two buttons: 'Options' and 'XML Maps...'. A mouse cursor is pointing at the 'XML Maps...' button. Below these buttons, it says 'Verify Map for Export...'. At the bottom of the task pane, there is a link: '? Tips for mapping XML'. The Excel status bar at the bottom shows 'Ready', a calendar icon, a grid icon, a zoom slider set to 100%, and the text 'Sheet1'.

Mineralogia Klein Zanichelli. Mineralogy Klein Zanichelli. Is a book that reveals the secrets of the.Q: Change the version of a library used in the project I have a project A which uses version 1.3.1 of a library X. When I try to build the project A, it says that it needs to have the version 2.0.0 of the library. Is there any way to change the version used in the build? A: Maven 2.0.x I used this solution when I encountered the problem. Here is the detail of it: Maven 2.1.x Based on the updated link: I use this solution on Eclipse 3.7.2 (in combination with m2e plugin 1.0.1) The link to the code on my repository: Comparison of efficacy of albendazole and oxantel pamoate against naturally acquired Fasciola hepatica infections in cattle. Thirty-five adult cattle with naturally acquired Fasciola hepatica infections were treated with either albendazole (ABZ) (15 mg/kg body weight) or oxantel pamoate (OX) (6 mg/kg body weight) once daily for 14 consecutive days. Fecal egg counts and coproantigen were used as efficacy indices. The mean (sd) egg counts before treatment were 627 (874) and 450 (674) for ABZ and OX treatments, respectively. At the end of the study, 77.8% and 63.6% of the OX and ABZ treatments were cleared of F. hepatica infection, respectively. The differences between the two treatments for the egg counts were not significant ($P = 0.17$), but the mean (sd) coproantigen levels at the end of the study were 1.94 (0.82) and 0.93 (0.61) for ABZ and OX treatments, respectively, and the difference was 82157476af
